## Judith Lubowicki, Named Inaugural Certified Professional Organizer® (CPO®)

Fenton, MI — Judith Lubowicki has received the prestigious designation of Certified Professional Organizer® (CPO®) from the Board of Certification for Professional Organizers (BCPO<sup>SM</sup>). She is a member of the **Inaugural Class of Certified Professional Organizers** and is recognized on both the BCPO<sup>SM</sup> and National Association of Professional Organizers (NAPO) Web sites.

Judith Lubowicki says, “The certification exam is important for helping clients and the public know that a minimum criterion has been set for professional organizing knowledge. I am committed to providing all of my clients with the best service possible. I applaud the certification process by the BCPO.”

“The program of certification for professional organizers acknowledges the importance and value of standards in our industry. The CPO® contributes to those evolving standards, and represents the epitome of competence, ethics, and professionalism,” says BCPO President Audrey Lavine, CPO®.

“I congratulate Judy Lubowicki on her initiative in being among the first to sit for the CPO® exam. Taking the CPO® exam demonstrates her commitment to the profession,” says NAPO President Standolyn Robertson, CPO®.

Jane Woolsey, CPO®, President of Professional Organizers in Canada (POC), commented “POC is delighted that NAPO has spearheaded this important step in the development of the organizing industry, that POC was able to play a part on the development committee, and that BCPO has developed a fair and comprehensive examination that is open to all organizers, not just NAPO members. This truly sets the industry standard.”

Judy Lubowicki will be honored in April 2008 at the major conference for the professional organizing industry, NAPO’s 20<sup>th</sup> Annual Conference in Reno, NV.

### What is CPO® Certification?

CPO® Certification is a voluntary, industry-led effort which benefits the public and members of the organizing profession. CPO® Certification recognizes those professionals who have met specific minimum qualifications and proven through examination and client interaction to possess the body of knowledge and experience required for certification. The program recognizes and raises industry standards, practices, and ethics. While the CPO® designation is not an endorsement or recommendation, *certification of professional organizers maximizes the value received from the services provided and products recommended by a CPO®.*

### What is a professional organizer?

A professional organizer enhances the lives of clients by designing systems and processes using organizing principles and through transferring organizing skills. A professional organizer also educates the public on organizing solutions and the resulting benefits. Professional organizers help individuals and businesses take control of their surroundings, their time, their paper, and their systems for life.
